DETAILED ACTION

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims **14-16**, **20**, **21**; and **24-26**, drawn to a wafer boat, classified in class 211, subclass 041.18.
- II. Claims **27-35**, drawn to a wafer boat combination, classified in class 206, subclass 832.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as use without the wafers or the lower grooved portion substantially conforming to the wafer, as in claim 27. See MPEP § 806.05(d).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
